Thermo-Fit Premium Custom Windows & Doors by Thermo-Tech® are designed to fit your lifestyle for low-maintenance, durability, comfort and energy savings.

Your satisfaction is reflected in everything we do.

Thermo-Tech. Premium Windows and Doors.
Thermo-Fit custom replacement vinyl windows and patio doors from Thermo-Tech® are expertly designed and manufactured with premium materials to provide energy savings, exceptional safety and security, and comfort through all the seasons. They’re also unbelievably easy to operate and clean and will require very little maintenance for decades of beauty and performance.

Green Building Solutions
Thermo-Fit windows and doors are made of vinyl, a sustainable, environmentally friendly material that lasts. Building products made of other materials, like wood, may seem to be greener solutions, but in reality they are less energy efficient. They also break down many times faster than vinyl, which means they need to be replaced more often — requiring more energy consumption. Plus, our products need no additional paint, stain, stripper, thinner or other solvents. Completely recyclable, vinyl simply makes environmental sense.

Energy Efficiency
Thermo-Tech helps reduce your home’s energy use with high-performance technology built into every Thermo-Fit window and patio door. Multiple chambers inside the frame trap air for superb insulation against heat loss. LoE glass options can be selected that meet or surpass minimum requirements of ENERGY STAR while providing superior protection for your home’s interior, including fading caused by the sun.

Reliability/Flexibility
Thermo-Fit windows and patio doors are designed to fit your home and you. With multiple styles, custom shapes, maintenance-free wood laminates or 3 vinyl colors, Thermo-Fit windows and patio doors accommodate your design preferences, your project, your budget and your lifestyle.
Quality materials and superb manufacturing make Thermo-Fit the best vinyl replacement windows & patio doors money can buy!

Thermo-Fit windows and patio doors come standard with white vinyl, matching hardware and double-pane insulated high-performance, argon-filled LoE glass. Combine other options to create a truly custom solution to fit your specific needs and lifestyle.

It Starts With Insulated Glass

Choose our standard double-pane insulated High-Performance glass, or select our Premium or Ultimate High-Performance options designed to meet a variety of needs.

Premium High-Performance heat reflecting glass adds even more insulating power for a balance of solar control, thermal performance, high visibility, and additional fade protection.

For the greatest thermal performance of all double-pane options, Thermo-Tech’s Ultimate High-Performance glass option delivers a “twin punch”. It offers all the benefits of our Premium option while maximizing thermal performance.

Compare glass performance information on pages 10 and 11.

Glass Options

All Thermo-Fit windows and patio doors come standard with double strength, High-Performance LoE, argon filled insulated glass.

GLASS OPTION UPGRADES INCLUDE:

- Ultimate High-Performance LoE™ 366/Argon/i89
- Premium High-Performance LoE™ 366/Argon
- Energy Guard PLUS Triple LoE™ 272/Argon
- Energy Guard Triple LoE™ 366/Argon
- Grids between the glass
- Obscure
- Tempered safety glass
- Grey and bronze tint

Why Premium Or Ultimate High-Performance LoE Glass?

- Lower energy costs = saving on heating bill
- Blocks 95% of harmful UV rays = reduced fading on carpet, furniture, etc.
- Year round comfort = cooler in summer, warmer in winter
- Average heat loss reduction compared to clear double-pane glass is 50%
- Elevates dual pane performance to R4 or greater with LoE™ 366/Argon/i89

TRIPLE-PANE WINDOWS

For maximum energy savings and optimal sun protection, step up to Energy Guard triple-pane insulated glass.

Available in casements, awnings, fixed-casements, direct-set picture windows, and shapes.

Three panes of double-strength glass provides strength, superior energy efficiency, and greatly increases the comfort level of your home.

Select from Energy Guard or Energy Guard Plus.

Options

Exterior Frame Options
In addition to standard white vinyl, Thermo-Fit windows and patio doors are available in two other exterior colors to match virtually any home style or color.

- White
- Tan
- Sandlewood

Interior Wood Laminate Colors
Get the warmth and classic beauty of wood with the comfort and ease-of-maintenance of vinyl. At Thermo-Tech, we never stop improving our vinyl windows and doors. We always start with expert design, durable construction and maintenance-free 100% virgin vinyl. But it’s the finishing touches that are turning heads – like our wood laminates featuring the warmth of wood and the maintenance-free insulating power of vinyl.

- Light Oak
- Dark Oak

Wood laminates available with White or Sandlewood exteriors only.

NEW Trimline Brick Mould
Easily add a custom look with our new Trimline brick mould featuring a more traditional contoured face.

FEATURES
- 1-1/2" or 2" traditional brick mould
- Traditional contoured face
- Snap on face provides easy access for fastening
- Finished look conceals fasteners
- Durable multi-chambers with welded corners match the strength of our windows
- Available with sill nose (as shown)

Available in White, Tan, and Sandlewood

Custom-Sized Replacement Frame Systems
MORE OPTIONS FOR A TRULY CUSTOM FIT!
Thermo-Fit Premium Custom Windows & Doors are designed to install easily without disturbing paint, siding or stucco.

1. Custom fit brick mould with nailing flange
2. Custom fit replacement brick mould
3. Custom fit with nailing flange
4. Custom fit replacement insert

Custom Hardware Colors

Heavy-duty standard low-profile folding hardware is available in White, Tan or Sandlewood to match your window color. Or choose optional metallic finishes for a more elegant look.

DISTINCTIVE GRID STYLES

Flat or contoured grids between the glass are available in a variety of configurations and colors to match our vinyl windows and doors.

Grid Patterns

Prairie  Queen Ann  Colonial  Valance

Custom Hardware Colors

Heavy-duty standard low-profile folding hardware is available in White, Tan or Sandlewood to match your window color. Or choose optional metallic finishes for a more elegant look.

STANDARD HARDWARE COLORS

White  Tan  Sandlewood

OPTIONAL METALLIC HARDWARE COLORS

Antique Brass  Oil-Rubbed Bronze

Antique Brass and Oil-Rubbed Bronze available on Double-Hung, Single-Hung, Casement and Slider windows.

Dark Oak laminate shown with Sandlewood hardware.
Double-Hung & Single-Hung Windows

Looking for a window that slides up and down without a lot of effort? Want a traditional old style window updated for today? Get it all with energy-efficient Thermo-Fit Double and Single-Hung windows from Thermo-Tech.

**FEATURES**
- Double-Hung both top and bottom sashes tilt in
- Flush mounted tilt latches in both Double and Single-Hung
- Single-Hung top glass is fixed into main frame and bottom sash tilts
- Smooth gliding balance system uses constant force coil that needs no adjusting and little or no maintenance
- Die-cast lock and keeper hardware draws in the sash for secure and weather tight locking
- Sloped sill directs water runoff
- Dual weather-stripped interlocks at the meeting rail and double layered weather-stripping on the sashes maximize resistance to air, water and dust infiltration
- See other options on pages 3-5

Bay & Bow Windows

Thermo-Fit bow and bay windows arrive fully assembled and ready to install. They come complete with jamb extensions, head and seat board, and back-up cable support system. Choose a bay window configuration with 30° or 45° angles, or a bow window in a 4-lite, 5-lite, or 6-lite configuration. Always charming, bow and bay windows accommodate a variety of combinations with double-hung, single-hung, casement, fixed casement and direct-set window units.

(Contact Customer Service for minimum/maximum widths and heights.)

www.ttwindows.com • 877-565-0159
Casement Windows

Precisely engineered, Thermo-Fit Casement window systems ensure a tight, energy-efficient seal from top to bottom — and that’s important when winter winds begin howling. Plus, maintenance is a breeze. The hinged side of the sash glides away from the jamb making it possible to reach between the sash and the window frame for easy cleaning.

FEATURES
• Multi-point locking hardware secures sash tightly with a single lever
• Easy cleaning from the inside with our standard hardware
• Triple-layered weather stripping
• Heavy-duty standard low-profile folding hardware
• All hardware comes color matched to the exterior window color
• Laminate windows come standard with Sandlewood hardware
• See other options on pages 3-5

Awning Windows

Awning windows are a great choice for today’s homes. Hinged on each side, Thermo-Fit Awning windows swing out and up for easy ventilation. Durable locking hardware ensures our awning windows close extremely tight, providing superior protection from wind and water infiltration.

FEATURES
• Two locking handles for added security
• Triple layered weather stripping
• Heavy-duty standard low-profile folding hardware
• All hardware is color matched to the exterior window color
• Scissor type hardware for smooth operation and tight weather seal
• Laminate windows come standard with Sandlewood hardware
• See other options on pages 3-5

Geometric & Radius Windows

Custom size shapes enhance your own sense of style with the versatility of vinyl in a broad range of attractive shapes. They provide an aesthetically appealing energy-efficient and low maintenance solution. Each style can be matched and mullled with all of Thermo-Tech’s window types for single and multiple window applications.

Select a geometric or radius window when you want to frame a beautiful exterior view.

Also available as Thermo-Tech® ENERGY GUARD & ENERGY GUARD PLUS Super High-Performance Window. See page 11 for performance data.
Sliding Patio Doors

Slim Line
The sleek stiles and rails of the Thermo-Fit Slim Line Sliding Patio Door offer a contemporary upscale look with maximum viewing area. Slim Line Sliding Patio Doors are engineered for superior performance, durability and energy efficiency with high-performance insulated glass providing both comfort and energy savings.

Classic French Style
Thermo-Fit Classic French Style Sliding Patio Doors have wider stiles and rails for a more traditional look, enhancing the appearance and value of your home. Every door is engineered for superior performance and energy efficiency. Operation is superb via dual ball bearing adjustable rollers.

FEATURES
- Dual-point locking system
- Durable stainless steel adjustable ball bearing rollers
- Matching frame for sidelights (Classic Series only)
- Reinforced sashes
- Stainless steel roller track
- Optional keyed locking system (Classic Series only)
- Aluminum anodized scuff resistant threshold
- Premium aluminum adjustable screen with BetterVue® fiberglass mesh

C-HANDLE COLOR OPTIONS

(Contact Customer Service for 3- and 4-Panel minimum/maximum widths and heights.)
Thermo-Tech® Windows and Doors are thoroughly tested for structural and thermal performance to the most widely recognized national standards. This will ensure that our products provide a lifetime of reliable, energy saving performance.

When shopping, make sure to compare structural and thermal performance ratings to ensure that you are purchasing reliable, energy-efficient windows.

Our products are structurally tested to the American Architectural Manufacturers Association (AAMA) window specifications. When comparing structural performance of windows look for the performance grade (PG). Performance grade is a window’s resistance to wind and rain. The higher the PG rating, the better.

Look for the National Fenestration Rating Council (NFRC) label for an accurate method to compare a product’s energy performance and also ensure the windows are ENERGY STAR® compliant in your area.

Compare the U-Factor and the Solar Heat Gain Coefficient (SHGC) of the window. U-Factor is a measure of how well a window keeps heat inside a home or building in the winter. The lower the U-Factor, the greater the insulating value of the window.

SHGC measures how well a window blocks heat caused by sunlight. The less solar heat is allowed into the home by the window, the lower the window’s SHGC, the less solar heat is allowed into the home by the window.

The lower the U-Value and the higher the R-Value, the better the window is at reducing heat loss.

### ENERGY STAR® COMPLIANCE

The ENERGY STAR program was developed by the U.S. Department of Energy and the Environmental Protection Agency to help consumers identify products that save energy. Requirements for windows are tailored to meet the energy needs of the countries four different regions — Northern, North/Central, South/Central and Southern. ENERGY STAR windows must be rated, certified and labeled by the National Fenestration Rating Council (NFRC) for U-Factor and Solar Heat Gain Coefficient (SHGC).

Indicates ENERGY STAR compliance for appropriate glazing zone.

<table>
<thead>
<tr>
<th>Zone</th>
<th>U-Factor1</th>
<th>SHGC2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Northern</td>
<td>≤ 0.20</td>
<td>≤ 0.25</td>

<td>North/Central</td>
<td>≤ 0.30</td>
<td>≤ 0.40</td>
</tr>
<tr>
<td>South/Central</td>
<td>≤ 0.30</td>
<td>≤ 0.25</td>
</tr>
<tr>
<td>Southern</td>
<td>≤ 0.40</td>
<td>≤ 0.25</td>
</tr>
</tbody>
</table>

*Doors meet ENERGY STAR at .30 U-Factor. SHGC may vary by zone.

**Conditions and Exclusions:**

* THIS IS A LIMITED WARRANTY AND DOES NOT COVER LABOR, SHIPPING EXPENSES OR OTHER COSTS ASSOCIATED WITH THE INSTALLATION OR REMOVAL OF PRODUCT FOR REPAIR OR REPLACEMENT EXCEPT WHERE NOTED.

* THERMO-TECH IS RESPONSIBLE FOR COSTS ONLY. INSTALLATION OR REFINISHING OF REPLACEMENT PARTS WILL BE THE RESPONSIBILITY OF THE CONSUMER.

* EXCLUDES IMPROPER INSTALLATION, FIELD FINISHING OR MAINTENANCE.

* EXCLUDES ADJUSTMENTS OF LOCKS, LATCHES, SASH POSITIONS OR FIT TO FRAME OR ANY OTHER ADJUSTMENTS DUE TO BUT NOT LIMITED TO STRUCTURAL EXPANSION, CONTRACTION, MOVEMENT, SETTLING OR OTHER OUTSIDE FACTORS THAT MAY AFFECT OPERATION, FUNCTION AND/OR FIT OF PRODUCT.

* THIS LIMITED WARRANTY DOES NOT APPLY TO ANY DAMAGE OR FAILURE CAUSED BY FIRE, ACCIDENT, FLOOD, INSECTS, MISUSE, HAIL, VANDALISM, CONSTRUCTION DEBRIS, EXCESSIVE TEMPERATURES, EXPOSURE TO UNIQUAL HEAT SOURCES, OR ANY OTHER EXTERNAL FORCES SUCH AS AN ACT OF GOD. THERMO-TECH Assumes NO OTHER LIABILITY FOR CONSEQUENTIAL DAMAGES TO ANY OTHER MATERIAL THAN THE PRODUCTS IT MANUFACTURES.

* EXCLUDES NORMAL WEAR, DISCOLORATION OR FAILING OF FINISHES, INCLUDING THE TAMISHING OF METALLIC HARDWARE.

* EXCLUDES DAMAGE CAUSED BY CHEMICALS OR SEALANTS (I.E. BRICK WASH) OR A HARSH ENVIRONMENT (I.E. SALT SPRAY OR AERORLINE POLLUTANTS). NOTE: SEALANTS USED IN WINDOW INSTALLATION AND BUILDING CONSTRUCTION MUST BE COMPATIBLE WITH WINDOW COMPONENTS AND MATERIALS.

* THIS WARRANTY APPLIES ONLY TO SIMPLE FAMILY DWELLINGS IN WHICH THERMO-TECH WINDOWS WERE INSTALLED.

* EXCLUDES WINDOWS AND DOORS THAT ARE INSTALLED IN STRUCTURES THAT DO NOT ALLOW FOR PROPER MOISTURE MANAGEMENT OR THE DRAINAGE OF MOISTURE SUCH AS EXTERIOR INSULATION AND FINISH SYSTEMS (EIFS), ALSO KNOWN AS SYNTHETIC STUCCO. THE SYSTEM MUST HAVE AN ENGINEERED DRAINAGE SYSTEM.

* EXCLUDES CONDITIONING OR FROST ON THE INTERIOR OR EXTERIOR EXPOSED SURFACES. THESE CONDITIONS ARE NOT A DEFECT IN THE PRODUCT, BUT A RESULT OF EXCESSIVE HUMIDITY.

* EXCLUDES ANY WOOD EXTENSION JAMS ON TRIM.

**Thermo-Tech reserves the right to discontinue or change any Thermo-Tech window system or product with/without notice. We shall not be responsible for consequential or incidental damages of any kind due to negligence or otherwise. This warranty is in lieu of all other agreements, understandings, and warranties, express or implied, including an implied warranty of merchantability and fitness for a particular purpose, there being no obligations or liabilities on Thermo-Tech other than those expressed in this warranty. This warranty is null and void if the product has been repaired without authorization, or if it has been altered, disassembled, or modified.**

Thermo-Tech reserves the right to discontinue or change any Thermo-Tech window system as manufactured. We shall not be responsible for consequential or incidental damages of any kind due to negligence or otherwise. This warranty is in lieu of all other agreements, understandings, and warranties, express or implied, including an implied warranty of merchantability and fitness for a particular purpose, there being no obligations or liabilities on Thermo-Tech other than those expressed in this warranty. This warranty is null and void if the product has been repaired without authorization, or if it has been altered, disassembled, or modified.

This warranty is transferable for a period of up to three years from the date of purchase. To transfer please call 320-529-4012 or 877-955-0159. If you have a warranty claim with your Thermo-Tech window, call the dealer nearest you or from whom the products were purchased or call 320-529-4012 or 877-955-0159. This warranty shall be governed, construed, and enforced in accordance with the laws of the State of Minnesota, without regard to its conflict of law principles.

All disputes and claims shall be resolved by a court located in Stearns County, Minnesota.
